DCI WEEKLY REPORT

After obtaining admissions from two [] employees that they had submitted excessive overtime claims since 1979, we have completed our investigation and find that the two men obtained a minimum total of almost \$24,000 in unearned overtime payments. This information is being supplied to the General Counsel and the Office of Personnel which will arrange repayment of the illegally obtained sums before the two men are separated. The Department of Justice has been kept informed of developments in this case.

We completed our review of an appeal by a former employee, Mr. [] of deletions that the Agency's Publications Review Board (PRB) had requested he make in his fictional short story manuscript. The Executive Director approved our recommendation that the PRB's decisions be reversed because the information [] wanted to include had been approved by the Agency in similar form for publication in previous precedent setting cases.

We have completed action on two long standing, difficult grievance cases. One of them has been forwarded to you for decision, and the DDCI will take action on the other.
